

About **1 in 8 women** in the United States (12%) will develop invasive breast cancer over the course of her lifetime.¹

GET A MAMMOGRAM

and you'll be automatically entered to win a \$100 gift card

¹ National Cancer Institute: <http://seer.cancer.gov/statfacts/html/breast.html>

Mammograms are the **best test** for finding breast cancer...

Mammograms can find breast cancer early, when it's most treatable. Women should have their first mammogram at age 40, and then another every one or two years.

We want you to have your mammogram this year. As an incentive, we are holding a prize drawing every quarter. When you have your mammogram, you will be entered into the drawing. All you have to do is show your member ID card when you have your mammogram.

Any member who has a mammogram in that quarter will be automatically entered into the prize drawing. A \$100 gift card will be awarded every three months for the next year.

The name and city of the winners will be posted on the website that is listed on your member ID card. Don't delay — call your doctor to schedule a mammogram today.
